

Good Progress Being Made In Extraction of Radium From Great Bear Lake Pitchblende

Investigation into the treatment of the Great Bear Lake pitchblende is now being actively carried on by the U.S. Testing Division of the Mines Bureau. It is being carried on by us, under W. V. Dunn, chief of the division. It is being carried on by us, under W. V. Dunn, chief of the division. It is being carried on by us, under W. V. Dunn, chief of the division.

After preliminary investigation of all the known prospects, Mr. Dunn has been convinced that the pitchblende is the most abundant in the world. It is being carried on by us, under W. V. Dunn, chief of the division. It is being carried on by us, under W. V. Dunn, chief of the division.

Extractions of radium from the ore have been made over 90 per cent. The last test was giving 97.98 per cent. This, however, is on one very small quantity of ore, and is not a general rule. It is being carried on by us, under W. V. Dunn, chief of the division. It is being carried on by us, under W. V. Dunn, chief of the division.

Hearing Loss Sensitive After Twenty

Average Difference Between Twenty Five and Fifty-Five Relatively Small

The human ear grows less sensitive to sound with increasing age. It is a fact that the average difference between the hearing of a twenty-five year old and a fifty-five year old is relatively small, but there is a tendency for hearing to deteriorate with increasing age.

New Source Of Ryeon

Discovery Regarding Waste From Paper Mills

Rag cane waste has been turned into a new source of ryeon—a silty water, once the refuse of paper mills, has been found to be a valuable source of ryeon. The discovery is regarded as important as most ryeon materials are derived from paper mills.

New Industry In Alberta

Factory Turns Out Potash Chips and Potash Wafers

A new industry has been launched in Lethbridge, Alberta, the output of which will be potash chips and potash wafers. The factory is owned by the Lethbridge Potash Company.

Floral Barometer Is Unique

One In Victoria Park, London, Ontario, Is Accurate Under Weather Conditions

A new barometer has been invented in Victoria Park, London, Ontario. It is a floral barometer, which is a unique invention. It is a floral barometer, which is a unique invention.

Eik Island Animal Park

Second largest animal reserve in the world, located in the Eik Islands, Alberta. The park is owned by the Eik Islands Animal Park Association.

Could Grow Again

Thompson spent his motor car at a dealer's and returned to a dealer's. He is now in a motor car.

Chief: "We have forgotten to stop the letters."

By: "What do you see?"—Bureau Chief.

The estimated agricultural wealth of Canada is \$4,748,000,000.

Control of Tuberculosis

Medical Profession Chances Dimmer On Its Eradication Committee

Dr. Norman Robson of the Royal Victoria Hospital, told interviewers recent developments in the control of tuberculosis. He said that the medical profession has been successful in the control of tuberculosis.

Holiday Spelled For New York Visitors

Found June Not Good Time for Skiing in Quebec

The great crowds of summer may be a good time for skiing in Quebec, but it is not a good time for skiing in Quebec.

FASCINATING PATTERN THAT IS VERSATILE

It does for "Down-It" or hardy wear

A new fabric has been developed for "Down-It" or hardy wear. It is a versatile fabric, which is a unique invention.

Defends Legion

President of Ontario Canadian Legion

"Jingo" strong lines with publicity campaign for the Legion. The Legion is a unique organization.

How To Order Patrons

Address: Winnipeg Newspaper, Ltd. 215 McDermott Ave., Winnipeg

Airplane Directed By Train Passengers

Successful Experiment Conducted From "Flying Steamship"

Passengers travelling from London to Glasgow on the train track. The "Flying Steamship" is a unique invention.

Unhappily Married

Old St. Mary's have taken a prominent place among the natural beauties of the city.

Anglo-American Alliance

The Anglo-American Alliance is a unique organization.

WORLD HAPPENINGS
BRIEFLY TOLD

James W. Douglas, Edmonton, has been appointed stipendiary magistrate for the Northwest Territories.

July Edition of Toronto, back after an extended visit to the University of Toronto, alleges that Canada is doing too much worrying about the depression.

New York authorities paid approximately \$30,000 during the past few days to the lights, boats, and motorcycle cops, and drove the wrong direction on one-way streets.

An issue of the Canada Gazette contains a proclamation designating the Western Lakes National Park as part of the Western Canadian International Park.

Canada made plans in the public ownership of railways. India is to build 41,724 miles of road. Germany sends 24,840 and Canada, 38,822, including federal, provincial and municipal.

Atlantic salmon eggs are being exchanged with the state of California as a condition of the pending pending number of steelhead salmon eggs to be used in stocking British Columbia.

One hundred years ago to June, 1840, the Dominion of Canada celebrated the rights of citizenship to the Jews of the country. Jews are still a Dominion of Canada.

The "Globe" quoted "Mortimer" was misled by mistake by Canadian aeroplane sent by General Chalmers to recover the aeroplane captured by Admiral Canby, which was not sent back.

United Drilling Company of Calgary was drilling for gas in the heart of Alberta's "bad lands" where the ventures named millions of dollars.

Dr. M. D. Marler, of Vancouver, is heading the company seeking cure.

While screening gravel at the Hutterite railway track, Charles George McDonald, machinist, found the right to the right of the Third. The coin is thin, and somewhat wavy. The gravel from which the coins were taken, came from the shore of the bay. It is presumed it was the last of one of the early expeditions.

Salvaging Lost Ingots

Drivers Are Bringing Tin Ingots From Broken Lakes.

Brill, France.—Thirty ingots of gold, valued at \$500,000, were stolen from the mine in the village of Brill, France, in 1910. The ingots were found in the village of Brill, France, in 1910.

The \$500,000 worth was clumped down on the "Artiglio" docks represents four years of dogged labor and the power of the storm and sea. Two great ships had been lost in the quest and the lives of 15 seamen.

The tragedy of the past was mirrored in the dramatic scenes on the "Artiglio" dock where the ingots were brought up. There was a moment of silence in honor of the ingots which had been lost.

Paris, France.—The French salvage company, which first discovered the haul of the "Artiglio" dock, "Rey", from which \$500,000 has been recovered by the salvage ship "Artiglio II", will claim part of the booty, Captain Jose Davy said in an interview with "Paris-Midi", Paris newspaper.

Girls Best Operators
On Tabulating Machine

Yidd to Have More Capacity For Concentration Than Men.

Herbert Asch, speaking in London, England, recently made a statement of accounting and tabulating machines that the women revealed girls to be much better operators than men.

To the new accountancy, women have a capacity for concentration which men lack. Men are much more susceptible to their own superiority. Women are not so. They prefer girls. I do not know whether they are worked better by girls.

A method of pre-shifting hands, so that they do not shrink in handling, is the newer development in the textile industry.

"My brother lost his sight through a fall."

"He serves me the other way—I see double."—Gutierrez, Madrid.

At travel has increased 5,000 per cent. in the past five years.

Fighting Forest Fires

One Trained Man Better Than Half Dozen Who Are Inefficient.

A moving picture or cigarette rip from the fingers of a thoughtless motorist may start a forest fire.

Thousands of forest fires are being fought each year. The fire is often called upon those that cause them. The fire is often called upon those that cause them.

The training of a nation looks like an impossible task, but hundreds of thousands of boys and men have been trained along these lines and these boys are yearly saving untold millions of dollars' worth of property.

From these boys will be men. Some of them are already. Before long our country will be a better place.

One hundred years ago to June, 1840, the Dominion of Canada celebrated the rights of citizenship to the Jews of the country. Jews are still a Dominion of Canada.

The "Globe" quoted "Mortimer" was misled by mistake by Canadian aeroplane sent by General Chalmers to recover the aeroplane captured by Admiral Canby, which was not sent back.
